

1. PREAMBLE

(1a) The design and development of the products are done by LID Technologies' headquarters in Toulouse (France), ISO 9001 certified.

(1b) The manufacturing of the products is done under the responsibility of LID Technologies, by LID Technologies' manufacturing subcontractor IATF 16949 certified. Therefore, LID Technologies' products are manufactured according to these standards.

(1c) LID Technologies Quality policy aims to select suppliers ISO 9001 certified and experienced in the automotive business, in order to have "automotive qualified" components.

(1d) To achieve its 0-defect target, LID Technologies manages the projects through the Project Management Process (PMP), from acquisition to serial production, with regular project progress meetings and milestones; Validation and qualification tests of each product of the system; Standard automotive tools, and methodologies like FMEAs, 8D, PPAP.

(1e) The actual product development will not be started until the Customer has issued a purchase order or a Letter of Intent to LID Technologies, for the annual volume and program duration stated in the RFQ.

(1f) For system development and validation purposes, LID Technologies asks the Customer to supply a vehicle or a portion of the vehicle with all the representative mechanical, electrical, and software environment of the system.

(1g) The language of the offer and of project documentation is English.

(1h) LID Technologies is able to submit PPAP to the Customer. If the Customer needs PPAP submission, LID Technologies will quote it after agreement of its content (LID Technologies standard is PPAP level 2).

(1i) The quotation doesn't include the RF-LF homologation (RED directive, FCC, e marking...).

(1j) The period of validity of the quotation is 30 days from the date shown at the top of this letter.

(1k) These general conditions of sales are applicable to all products sold by LID Technologies. Any Customer's purchase order or any approved LID Technologies quotation by the Customer means that the Customer accepts LID Technologies' general conditions of sales and renounces to its general conditions of purchase. The fact that LID Technologies does not take advantage, at some point, of one of the general conditions of sales cannot be interpreted as being a renunciation to take advantage later of one of the aforementioned conditions. Any waiver to the general conditions of sales shall be approved in writing by LID Technologies' management.

2. PURCHASE ORDERS

(2a) The Customer agrees to respect in its orders the Minimum Order Quantities (MOQ) per Delivery as defined in the offer.

(2b) Given the lead times of electronic components, the Customer agrees to send the delivery programs of the open order to LID Technologies, on a monthly basis, according to the following rules:

- From month M to M+3: The volumes are fixed and cannot be cancelled by the Customer;
- From month M+4 to M+8: The volumes represent forecasts and are used by LID Technologies to order the components according to their lead times and Minimum Of Quantities (MOQ). The forecasted volumes [M+4; M+8] can be cancelled partially or in totality by the Customer. Therefore, on one hand, in case of volume cancellation or reduction, and if material orders cannot be cancelled, the customer will be invoiced. On the other hand, in case of forecasted volumes increase during the period [M+4; M+8], the Customer agrees to first contact LID Technologies, who will do its best to respond in the shortest possible time to the feasibility and to any incurred potential additional costs.
- From month M+9 to M+12: The forecasted volumes can be cancelled by the Customer without any consequence.

(2c) Latest on the 5th (fifth) business day of the month M, the Customer shall send to LID Technologies the actualised delivery program for the months [M; M+12]. If not, the forecasted volumes M+4 from the previous delivery program will become firm, considered as M+3 volumes for LID Technologies and the forecasted volumes M+9 from the previous delivery program will be considered as M+8 volumes for LID Technologies.

(2d) The Customer shall buy the surplus raw material that has aged more than 6 months since the last shipment.

3. DELIVERY

(3a) Unless otherwise specified in the offer:

- Delivery terms: Ex works from LID Technologies production facility.

- Packaging: Standard LID packaging (GALLIA 13).

(3b) If volumes are reduced below those shown in this offer, the Customer and LID Technologies agree to renegotiate part prices.

4. PAYMENT TERMS

(4a) LID Technologies does not include in the quotation the delivery of either the source code, the electronic schematic, the plan of each mechanical component nor the data from the production test benches. Partial data may be transmitted according to the needs during the execution of the project. In any case, they are subject to the non-disclosure as defined in paragraph 7.

(4b) This quotation excludes any productivity gain request and any late delivery penalty.

(4c) Payment terms: 30 days net after invoicing.

(4d) Overdue amounts are submitted to a penalty of 1% per month.

(4e) 40 Euros for liquidated damages of delay will be applied.

5. WARRANTY

(5a) LID Technologies agrees that the products related to this quotation and after PPAP approval shall meet the specifications defined, validated and signed by LID Technologies and by the Customer (hereafter referred to as the "Specifications").

(5b) The warranty and the liability of LID Technologies for the products related to this quotation and after PPAP approval are established for a period of twelve (12) months from the date of delivery by LID Technologies. If the date of delivery cannot be established, the manufacturing date printed on the product +3 months shall be applicable.

(5c) In the event that, within the above-mentioned warranty period, the Customer returns any defective product to LID Technologies, the Customer shall inform LID Technologies before sending back the products with all detailed problem description data and circumstances. At reception of the products, LID Technologies shall identify all immediate containment actions to protect the Customer, analyse the root causes of the con conformity and set up the appropriate corrective and preventive actions, following 8D methodology. In case LID Technologies' responsibility is clearly established after common expertise by the Customer and LID Technologies, LID Technologies shall replace the non-conform products, without cost to the Customer. Any additional costs such as disassembly/assembly, administrative or any collateral damage directly or indirectly caused by LID Technologies' product are not covered by warranty.

(5d) The warranty and liability of LID Technologies do not extend to any losses or damages due to misuse, accident, abuse, modification, nor use, beyond the use defined in the specifications.

(5e) The warranty and liability of LID Technologies described above constitute the sole warranty and liability conditions of LID Technologies toward the Customer and exclude any other warranty and liability, expressed or implied, from any legal on any other constraints, not defined in the specifications.

(5f) Once the serial production will be finished, a specific mutual contract shall be negotiated between the Parties to define the terms and conditions of sales of the aftermarket products, taking into account the production and resources' constraints. The target of this new mutual contract will be to define the conditions and duration to insure the availability of the necessary aftermarket products.

(5g) Any repair or furniture done under warranty will not extend the warranty period.

(5h) The customer must notify our company of the alleged defect within twenty days of its discovery. In case of default, our warranty ceases automatically.

6. FORCE MAJEURE

(6a) All LID Technologies' engagements will be suspended in any situation where the non-execution of an obligation would result from a case of force majeure.

(6b) A case of force majeure, leading to non-delivery, delivery delay or delivery not conform, are events reasonably out of control from LID Technologies, such as strike affecting LID Technologies or its sub-contractors, suppliers or transporters, lock-out, tool break, severe weather events.

7. CONFIDENTIALITY

(7a) This quotation will be treated confidentially by the Customer. The Customer agrees not to share the quotation or its contents with third parties.

(7b) In case of NDA already signed between LID Technologies and the Customer, all confidentially conditions defined in the Non-Disclosure Agreement (NDA) are applicable for this quotation. If not, please find them here: The Confidential Information can include but without being limited to know-how, algorithms, software, masks of integrated circuits, drawings and models, original creations

and can appear on all media (such as written or printed documents, computer files on a USB stick, emails, CD Rom, samples, prototypes...)

(7c) The confidentiality provisions also apply to:

- (i)** in general, any information of any nature whatsoever, from which the Customer may have knowledge in any form whatsoever, during his visits to LID Technologies,
- (ii)** any information or data disclosed orally insofar as the confidential nature of the Confidential Information has been brought out to the attention of the Customer no later than thirty (30) days after disclosure,
- (iii)** any information exchanged in the context of a meeting on confidential items, without Customer or LID Technologies has a need to notify its confidential character.

(7d) During the validity period of the project related to this quotation during 10 (ten) years after termination of the project, the Customer shall treat all Confidential Information as confidential and not to disclose or otherwise communicate in any form whatsoever to third parties and including sub-contractors or to any other person without the prior written consent of LID Technologies and provided that the third party recipient agrees in advance and in writing to comply with the same confidentiality obligations as these contained in the quotation, the Customer remains liable to LID Technologies to the fulfilment of confidentiality obligation of the third party.

(7e) Customer agrees to not use the Confidential Information for purposes other than the project related to this quotation. In addition, Customer agrees to limit the disclosure of Confidential Information which has been received in the context of the present quotation to the staff directly involved in the project related execution and agrees to oblige the said Staff to comply with the confidentiality provisions of the present quotation.

(7f) The obligations of paragraph 7 shall not apply however to any information which:

- is already in the public domain or becomes available to the public through no breach of this quotation by the Customer
- or was in the Customer's possession as proven by its written records prior to receipt from LID Technologies
- or has been disclosed after written authorization by LID Technologies
- or is received independently from a third party free to disclose such information to the Customer
- or is subsequently independently developed by the Customer as proven by its written records or other adequate proof.

8. INTELLECTUAL AND INDUSTRIAL PROPERTY

(8a) Neither this quotation nor the delivery of any Goods hereunder shall be construed as granting any right in or license under any present or future data, drawings, plans or ideas or methods disclosed in this quotation, or under any invention, patent, copyright or trade secret now or hereafter owned or controlled by LID Technologies.

(8b) Consequently, the Confidential Information shall be returned to LID Technologies (along with all copies thereof) within 30 days of receipt by the Customer.

9. PATENT INFRINGEMENT

(9a) LID Technologies is not responsible for claims resulting from any infringement of present or future proprietary rights or other intellectual property rights if

- (i)** the alleged infringement results from the use of items (including processes and technologies) that are required by the Customer specification,
- (ii)** the alleged infringement results from the combination of the LID Technologies product with items or software that is not provided by LID Technologies,
- (iii)** the alleged infringement results from the failure to promptly install or distribute a product update or modification,
- (iv)** or the alleged infringement results from a product update or modification that was not authorized by LID Technologies. License costs are not part of this quote.

10. PERSONAL DATA PROTECTION (GDPR)

(10a) Personal data protection within this quotation is governed by GDPR regulation and all definitions contained within GDPR regulation will apply, except where they are inconsistent with the quotation.

(10b) LID Technologies collect strictly necessary personal data (such as identification data, first name, last name, e-mail address, postal address, telephone number...), kept for as long as is strictly necessary to fulfil the purposes for which it is collected.

(10c) Customer personal data is collected and processed on the basis of the following legal conditions:

- (i)** In the context of executing a contract,
- (ii)** For purposes of legitimate interest,
- (iii)** With Customer consent,
- (iv)** To ensure compliance with legal and regulatory obligations.

(10d) LID TECHNOLOGIES sub-contractors, such as suppliers and manufacturing partners, have no possibility to use Customer personal data for any purpose other than performing their designated service.

(10e) By sending an email to rgpd@lid.tech, Customer retains the rights below, applicable to all personal data processing operations concerning the Customer and, more precisely, on the legal framework on which the operation is based (such as a contract, legal obligation, consent, legitimate interest, etc.):

- (i)** The right to access data, enabling the Customer to ask questions regarding the nature of any processing operations concerning the Customer (such as type of data, origin of collection, etc.), and allowing the Customer to ask LID Technologies for a copy of all the information stored.
- (ii)** The right to change data, meaning that Customer may update its personal data stored by LID.
- (iii)** The right to delete data, referring to the right to be forgotten. When Customer personal data is processed on the basis of Customer consent or on the basis of LID Technologies legitimate (non-imperative) interest, Customer may obtain the advanced deletion of its personal data, by letting know to LID Technologies the wish to withdraw Customer consent, or exercise Customer right to oppose processing.
- (iv)** The right to data portability, enabling the Customer to request obtaining personal data concerning the Customer, as long as that data is processed on the basis of Customer consent or a contractual relationship. LID Technologies is obligated to provide the Customer with this data in a format that can be used technically by the Customer or an entity other than LID Technologies.
- (v)** The right to oppose the use of personal data, not to be included in a data processing operation or to no longer be included in such an operation. This right applies when the processing is based on LID Technologies' "legitimate interest", provided that this interest is not "imperative".

11. RECOVERY OF COSTS (TOOLING AND DESIGN & DEVELOPMENT)

(11a) In the event of cancellation of the project by the Customer prior to termination or volume dropping prior to the full amortization of actual amortized costs (Tooling and Design & Development costs), the Customer agrees to reimburse LID Technologies the full amount of costs incurred or committed by LID Technologies up through the date of cancellation:

- Expenses covering capital, tooling and manufacturing expenditures incurred or committed to the date of cancellation,
- All LID Technologies tooling expenses incurred or committed to the date of cancellation,
- The cost of all ordered goods, and all project related material that is either finished, in-process or inventoried.

12. RECYCLING

(12a) Any costs of recycling are not included in the offer.

13. SPECIFICATION CHANGES

(13a) Any change request issued by the Customer in the system or product specification shall be communicated to LID Technologies through a prior written Modification Request. It is noticed that specification change could affect for example the piece prices, the tooling costs, the R&D costs, the delivery schedule.
